

Introduction

Thank you for your interest in career opportunities with the U.S. Army Aviation and Missile Command's Research, Development, and Engineering Center (AMCOM RDEC). Typically, our entry level engineers and scientists are given a wide variety of technical and system related assignments. The assignments may be theoretical or experimental in nature. They are challenging but achievable, and senior level mentoring is nearby; result: our entry level engineers and scientists rapidly progress to the journeyman level. This Center encourages and supports graduate level education, rewards innovation, and provides the resources needed to excel.

Rapid Advancement

- Entry level for most graduates is DB-02 (GS-05 thru GS-11)
- Exceptional Students may be hired at a higher level

Details concerning salary ranges are provided at page 7. Want to know more about working at the AMCOM RDEC?
